

## **LONG TERM PHOTOGRAPHY PROJECT CHALLENGE**

The Photography Project Challenge is to be presented at the January 13 meeting, if enough participate also the January 27 meeting.

- The challenge is for each member to pick a project that will provide a learning and growth opportunity.
- The project should be based around a subject and a common theme.
- You should set goals that challenge you and stretch your imagination.
- You define your project and your outcome

### **Meeting Presentation**

- Discuss your your subject, theme and goals
- Show 8 to 12 photographs that illustrate your project
- Discuss how you achieved your goals, maybe what you would do differently next time

The purpose of this challenge is to allow each of us to thoughtfully approach a topic, work it, learn from it and improve our individual skills. We are all at different skill levels and with different equipment, therefore, this challenge is for you to select what motivates you.

Please email me to let me know if you are planning to participate ([jim.walker@potomac-images.com](mailto:jim.walker@potomac-images.com)) so I can know how to plan the January 13 and 27 meetings.
