Subject: Boating Trip - Rail Trip

Here is a details for the trip on the pontoon boat.

I have schedule a wildlife photography boat trip on the Patuxent River at Patuxent River Park at Jug Bay(PG County). One of the past speakers, Greg Kearns is a naturalist with PG County and will open the park early and run the boat for us. One of the goals is to see a bird called a rail. Greg has worked hard in bring back wild rice on which the rails live. But he will also call in owls and other birds. I've been on four trips and something exciting always happens (rare birds and close encounters). The cost is \$15 or \$18 depending if you live in PG Co or outside.

The trip is scheduled for 7AM on Wednesday 9/23/15. We should be waiting at the park gates at 7AM. It is about a mile from the gates to the boat.

The trip is limited to 15 people. Spouses and friends are welcome if there is room. Liability is through PG Parks.

I have a list started. To be added to the list please send me (or call) your Name, #of people, e-mail and contact phone # (cell phone preferable). I will send out reminders with hints about what equipment to bring later.
