8:45-9:00   Tech Tip Video:
                   How to create a HDR image using Photomatix Pro

How to submit photos for a Showcase or Challenge

http://dpca-techspot.blogspot.com/

Unless otherwise stated, the submission deadline is 7 days before the next meeting for both Challenges and Showcases. For example that means the Monday, one week before a Monday meeting. For Exhibits, submission deadlines are different for each exhibit. Refer to the Club's website http://www.digitalphotoclub.net for instructions.

Prepare each photograph by converting it to a .JPG file no larger than 1024 pixels on the longest side. Larger images will be accepted but may be blocked by email servers. If you submit an image smaller than 1024 on the longest side, it will not show well when displayed.

Rename each photograph with your name and a sequential number something like this:

- John-Smith-01.jpg
- John-Smith-02.jpg
- John-Smith-03.jpg

We suggest you name the files you most want to display with the lowest numbers. When we have too many photographs to display in the time allotted, we may need to limit each photographer to one or two photographs.

Attach the files to a new email message addressed to:

showcase@digitalphotoclub.net for showcases OR
challenge@digitalphotoclub.net for challenges.

If you would **NOT** like to have your photographs on the club website, include the following statement in your email submission:

Calendar

Next Meeting:

Guest Speaker: Dave Blecman
"One light portraiture in a home studio"

First hour: Live model demonstration
