

Creative Filters in Photoshop

Michael Kellogg

Creative Filters in Photoshop

- Why would you want to use creative filters?
- 1) Because they are fun
- 2) For graphic displays
- 3) For covers of reports
- 4) For advertising
- 5) To create your own style
- 6) To use as an illustration
- 7) Because you can!!

Creative Filters in Photoshop

- Images must be in 8 bit for most filters
- Select an image that is graphic in nature
- Understand how the image will be used
- Don't be afraid to experiment!
